

Rugged In-Vehicle Docking for Zebra ET5X Tablets

Put Real-Time Data, Apps and Digital Workflows at Your Fingertips

Havis docking stations take the complexity out of going digital in work trucks, waste management vehicles, warehouse forklifts, and more. You get everything you need in an all-in-one solution, including docking, electronics, communication ports, and power.

The Complete Docking Solution

- Compatible fit for both 8" and 10" Zebra ET5x tablets w/rugged frame
- Rugged military-grade design and durability specs
- Ideal for utilities, material handling, waste management and more
- Isolated and optional non-isolated power supply
- Standard and optional advanced port replication
- Spring-loaded docking connector for constant contact
- VESA 75 pattern for easy attachment to mounting equipment

Custom Flexibility and Usability

- Easy one-handed docking and undocking in seconds
- Lightweight and compact dock for full tablet accessibility
- Pivoting alignment points that tilt with tablet removal
- Rounded edges for user comfort and safety
- Keyed lock to deter theft and ensure peace of mind
- Compatibility with Zebra D-clips, handle straps, and shoulder straps
- Built-in LED power indicator for easy troubleshooting
