

# FLEXIGRIP MINI 2

## UNIVERSAL PAYMENT MOUNTING SOLUTION

The FlexiGrip Mini 2 from Havis is a universal payment mounting solution compatible with an even wider range of payment terminals such as the Ingenico Link 2500, Verifone e280 and Pax A50.

The FlexiGrip Mini 2 is the ideal solution for retailers who change their payment technology frequently.

Adjustable arms hold the payment terminal securely in place with new and improved high friction foam grippers. Easy one-handed release makes this an ideal solution for small mPOS devices.

- Ideal for mobile point of sale applications - easily remove device from stand with one hand
- Adjustable to accomodate a wide range of payment terminal types from 2.12" (54mm) to 3.94" (100mm) wide
- Compact and minimal footprint help to create an organised checkout environment
- Protects PINPad and cables from damage, theft and criminal interference
- Side tabs on the stand can be positioned anywhere along the sides of device to clear access to ports\*
